**December 29, 2021 Minute Notes**

---

Meeting time: 9 am Zoom meeting. Claude, Teresa, John, Bill, Mike and Anya

Discussion items:

The loan of the Meade LX600 and Coronado H-alpha telescopes was discussed. The initial MOU for the loan of the telescopes was written by Bill and modified by Claude and Mike to include information regarding serial and model numbers. It will be sent to Thane for review. See attached document.

Proposal of a project to create a BVS community observatory at the Flying Field area and use of the 12" Meade was discussed. We agreed to start an email exchange of ideas between all board members on this topic. We hope that Joe can provide suggestions to make the project a success.

Agenda items for next week's general meeting. Claude will do a Sun Presentation. Additionally, the board planned to do a Solar Party in January. Time and place TBA. A short talk and video clip on the launch of the NASA James Webb will be led by Claude and John.

Future invited lectures. We are contacting Dr Nick Strobel from Bakersfield College for the February meeting.

Meeting adjourned: 9:45 am
